

## ACCESSORY PACKAGE

### CONTENTS and INSTRUCTIONS

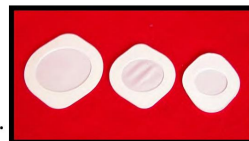

#### CAPFILTERS with CAPS

Improved screw on capfilter. Simply screw cap onto ink jug with filter in bottle. Place the black cap on the pour spout when not in use. Filter can also be put on the return hose when pumping ink.

#### PUSH ON BOTTLE FILTER (PBF)

These filters push down on the top of the first thread of most ink jugs to filter ink being poured out of the bottle. Available in three sizes 1 1/2", 2 1/8" and 2 1/2".

#### STAND PIPE and INK LEVEL INDICATOR (ILI)

Standpipes fit all DIP Company standard 3/4" drains and are available in sizes from 1.12" - 2.23" long. ILI's are sold separately and are used to easily visualize ink levels.

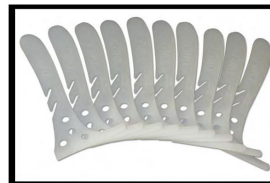

#### INK SCRAPER

Made from a firm poly coated paper and used to remove remaining ink from the fountain after it has been drained.

#### STIR STICK & SPATULA STICK

Used to agitate ink in the fountain and scrape ink out at the end of a run. Notches are to rest on edge of the fountain when not in use.

#### RUBBER STOPPER

Used to plug the drain in the liner.

Diversified Innovative Products

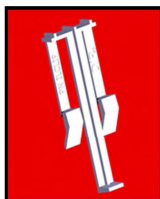

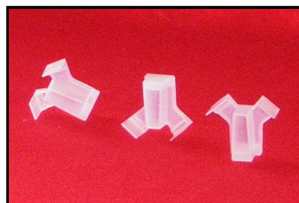

#### **FOAM WIPERS**

DIP Company offers a variety of foam wipers for numerous different presses.

#### **WC2000 WIPERS**

Advanced disposable wipers that fit the C2000 liner systems available for most presses. They efficiently wipe the edges of the rollers and keep the ink from migrating onto the journals allowing you to attain higher press speeds.

#### **INK LEVEL CLIP (ILC)**

ILC's can be clipped over the liner and retainer, providing an easy visualization of your ink levels. Available in two sizes (2.65" and 4.4").

#### **"QUICK CHANGE" LINERS AND DRIP TRAYS**

DIP Company has an extensive line of paper ink fountains and drip trays made from a poly-coated paper to fit most presses. Most of the liners are designed to work with a DIP Company stainless steel retainer. Our liners are available with a straight or 45 degree drain.

#### **PAIL LID**

These disposable lids can be used when pumping ink. They are perforated for easy insertion of pump tubes and hoses. Simply fold the tabs up and insert into top of pail. We offer lids for 1, 2, 2.5 and 5 gallon buckets.

#### **LARGE POUR SPOUT**

Screw-on pour spout for wide mouth ink bottles. Makes pouring easier and eliminates ink build-up on threads of the bottles. The spout has two different threads. The smaller fits bottles with an outside diameter of 2.5". The other thread fit bottles with an outside diameter of 2.75".
