

## The DIP Company appreciates having this opportunity to save you time and money in your printing operation.

- DIP's paper drip trays are designed to either fit under the ink fountain or on the floor under the press, depending on the configuration.
- The paper in the drip tray is polyethylene coated, and will last for many days. Once the ink is dry, the tray can be disposed of in the regular waste stream.
- DIP makes over 40 drip trays, in many different sizes and configurations – please call your sales person if you have need of a different size.
- DIP can also make custom drip trays. Contact your sales person.

Example: Webtron 750 Drip Tray

Example: Mark Andy 2200 Drip Tray
